EXPERIENCE

Experiment Engineer/CroMetrics

2022 - Present

- Developed and led a mentorship program, addressing organizational challenges and fostering individual growth through tailored onboarding and career development phases.
- Founded and spearheaded a professional learning community focused on empowering and supporting women in engineering, providing a platform for knowledge sharing, mentorship, and career development.
- Led the reorganization and restructuring of the engineering wiki space, optimizing information architecture, improving searchability, and enhancing overall user experience.
- Collaborated with cross-functional teams to successfully launch new features, ensuring effective communication and coordination throughout product development.
- Troubleshoot issues related to data collection, metric tracking, or experiment configuration.

Sr. Engineer, Board Member/Clearviction

2020-2023

- Led Tech Foundations Team, driving strategic direction, mentoring team, and implementing core technical principles, improving overall proficiency and efficiency.
- Led cross-functional task groups to drive collaborative progress and achieve strategic objectives.
- Collaborated as a member of the development team to implement MUI redesign on [website](#).
- Led a team to increase website accessibility by 15%.

Frontend Engineer/Center for Changing Lives

2021-2023

- Enhanced user experience by optimizing website navigation for clarity and ease of use.
- Implemented bilingual functionality with Spanish and English pages to ensure inclusivity and accessibility for all users. [Website](#)
